Health and Safety Policy

Mission Statement

#We are the Future

- To empower children with 21st century skills.
- To provide a happy, safe, and caring environment in which all individuals feel connected and respected thus empowering them to reach their fullest potential.
- To promote learning through project-based learning and technology-based tools.
- To deliver an exciting and vibrant curriculum while having serious fun.
- To enrich the curriculum with extra-curricular activities and physical learning environments.
- To encourage each child to develop high self-esteem and, in doing so, learn to respect others.
- To be partners with parents and families to share the responsibility for developing their children educationally, morally, spiritually, and socially.

Policy Review Summer 2023

Responsible staff:

Headteacher: Mr. Samir Benmakhlouf

Estates and Facilities Manager: Mariem Azouitine

Statement of intent

At London Academy Casablanca, we are committed to the health and safety of our staff, pupils and visitors. Ensuring the safety of our community is of paramount importance and this policy reflects our dedication to creating a safe learning environment.

We are committed to:

- Providing a productive and safe learning environment.
- Preventing accidents and any work-related illnesses.
- Compliance with all statutory requirements.
- Minimising risks via assessment and policy.
- Providing safe working equipment and ensuring safe working methods.
- Including all staff and representatives in health and safety decisions.
- Monitoring and reviewing our policies to ensure effectiveness.
- Setting high targets and objectives to develop the school's culture of continuous improvement.
- Ensuring adequate welfare facilities are available throughout our school.
- Ensuring adequate resources are available to address health and safety issues, so far as is reasonably practicable.

1. Roles and responsibilities

The Senior team, in conjunction with the Estates and Facilities manager, will:

- Ensure it provides a safe place for all users of the site, including staff, pupils and visitors.
- Oversee that staff receive training and instruction so that they can perform their duties in a healthy and safe manner.
- Ensure whole-school familiarity with the requirements of the appropriate legislation and codes of practice.
- Create and monitor a management structure responsible for health and safety in the school.
- Ensure there is a detailed and enforceable policy for health and safety, and that the policy is implemented by all.
- Assess the effectiveness of the policy and ensure any necessary changes are made annually.
- Identify the risks relating to possible accidents and injuries and make reasonable adjustments to prevent them occurring.
- Ensure the school has secured safe means of entry and exit for all site users.
- Ensure the school can provide equipment, grounds and systems of work which are safe.
- Ensure safe arrangements are made for the handling, storage and transportation of any articles and substances.
- Ensure staff have safe and healthy working conditions that comply with statutory requirements, codes of practice and guidance.
- Where necessary, ensure the school can provide protective equipment and clothing, along with any necessary guidance and instruction for safe use.

London Academy Casablanca have delegated health and safety responsibility to the management of the school.

The SLT members will:

- Ensure whole-school familiarity with the requirements of the appropriate legislation and codes of practice.
- Create and monitor a management structure responsible for health and safety in the school.
- Ensure there is a detailed and enforceable policy for health and safety, and that the policy is implemented by all.
- Assess the effectiveness of the policy annually and ensure any necessary changes are made.
- Identify risks relating to possible accidents and injuries and make reasonable adjustments to prevent them occurring.
- Ensure the school has secured safe means of entry and exit for all site users.
- Ensure the school can provide equipment, grounds and systems of work which are safe.
- Ensure safe arrangements are made for the handling, storage and transportation of any articles and substances.

- Ensure staff have safe and healthy working conditions that comply with statutory requirements, codes of practice and guidance.
- Where necessary, ensure the school can provide protective equipment and clothing, along with any necessary guidance and instruction on use.

The Headteacher and Senior Leaders will:

- Have overall responsibility for the day-to-day development and implementation of safe working practices and conditions for all staff, pupils and visitors.
- Set the direction for effective health and safety management.
- Introduce management systems and practices that ensure risks are dealt with sensibly, responsibly and proportionately.
- Review this policy and its effectiveness annually.
- Take all reasonably practicable steps to ensure this policy is implemented by the heads of the appropriate departments and other members of staff.
- Designate a competent person who will be responsible for ensuring the school meets its health and safety duties – the competent person will be the health and safety officer.

The health and safety officer will:

- Assist with the creation and implementation of this policy.
- Be responsible for investigating accidents and incidents, to understand causes and amend risk assessments as required.
- Support staff with any queries or concerns regarding health and safety.
- Identify hazards by conducting risk assessments.

Supervisory staff and/or department heads will:

- Be familiar with the requirements of health and safety legislation.
- Be responsible for the implementation and operation of the school's Health and Safety Policy in their department, and for areas of responsibility delegated by the Headteacher.
- Be responsible for adhering to the aspects of health and safety that are outlined in their job descriptions.
- Take a keen interest in the Health and Safety Policy and assist in ensuring all staff, pupils and visitors comply with its requirements.

All members of staff will:

- Take reasonable care of their own health and safety, and that of others who may be affected by what they do at work.
- Cooperate with their employers on health and safety matters.
- Carry out their work in accordance with training and instructions.
- Inform the employer of any work situation representing a serious and immediate danger, so that remedial action can be taken.
- Familiarise themselves with the Health and Safety Policy and aspects of their work related to health and safety.
- Avoid any conduct which puts themselves or others at risk.
- Be familiar with all requirements laid down by the governing board.

- Ensure that all staff, pupils and visitors are applying health and safety regulations and adhering to any rules, routines and procedures in place.
- Ensure all machinery and equipment is in good working order and safe to use, including adequate guards, and ensure such equipment is not used improperly.
- Use the correct equipment and tools for the job and any protective clothing supplied.
- Ensure any toxic, hazardous or flammable substances are used correctly, and stored and labelled as appropriate.
- Report any defects in equipment or facilities to the designated health and safety officer.
- Take an interest in health and safety matters, and suggest any changes that they feel are appropriate.
- Make suggestions as to how the school can reduce the risk of injuries, illnesses and accidents.
- Exercise good standards of housekeeping and cleanliness.
- Adhere to their common law duty to act as a prudent parent would when in charge of pupils.

Pupils will:

- Exercise personal responsibility for the health and safety of themselves and others.
- Dress in a manner that is consistent with safety and hygiene standards.
- Respond to instructions given by staff in an emergency.
- Observe the health and safety rules of the school.
- Not misuse, neglect or interfere with items supplied for their, and other pupils', health and safety.

2. Training and first aid

The school will ensure that staff are provided with the health and safety training they need for their job. This may not always mean attendance at training courses; it may simply involve providing staff with basic instructions and information about health and safety in the school.

Staff will be provided with regular training opportunities and have access to support where needed. Staff are expected to undertake appropriate CPD in order to further contribute to the running and success of the school. Staff will be trained on how to assess risks specific to their role.

The health and safety officer will ensure staff know how to meet their duties outlined in this policy. Where relevant to their role, staff will receive specific training in:

- Using machinery and electrical equipment.
- Having responsibility for the storage and accountability for potentially hazardous materials.

First aid

The school will act in accordance with the First Aid Policy at all times. The school will ensure that ample provision is made for both trained personnel and first-aid equipment on-site.

The school will carry out a first aid needs assessment where necessary in order to help inform the First Aid Policy.

[Primary schools only] The school will teach Health Education to pupils, including basic first aid, such as dealing with common injuries.

[Secondary schools only] The school will teach Health Education to pupils, including further first aid, such as how to administer CPR and the purpose of defibrillators.

The Headteacher will ensure that there is an appropriate number of first-aid trained staff members working within in each classroom.

The following staff members are trained first-aiders:

Name	Department	Location
Ghizlane EL Ghazi	Nurse	Medical Room
Stewart Cain	Head Of Primary	Primary Office
Anas Moustahwid	Teacher	Secondary Office
Meriem Ismaili	SENDCO	Intervention Room
Mira Muhammed	Teacher	Lab
Yassine Mernisse	Teacher	Secondary
Nadia Ait Mellouk	Teacher	Primary
Soukaina Lemhada	Teacher	Admin

First aid boxes are located as follows, and the named staff members are responsible for their secure storage and use:

Location	Responsible staff member
Nurse Room	Ghizlane EL Ghazi
SEN Room	Meriem Ismaili

3. Contacting the emergency services

The Head of Estates and Facilities will certify that procedures for ensuring safety precautions are properly managed are discussed, formulated and effectively disseminated to all staff.

Nominated staff will contact the emergency services in an emergency (**Head of Administration, COO or Headteacher Only**). Staff will alert their colleagues to the incident, if it is safe and appropriate to do so, using two-way radios.

Where an ambulance is called for a pupil, office staff will contact the pupil's parent. Where necessary, all pupils will be evacuated from the building and taken to the designated

emergency assembly point – currently, this is [Astroturf Playground at the rear of the building](#).

Staff will be aware of any pupils who have specific evacuation needs. Staff will be responsible for the safety of pupils and responding to any questions from the emergency services, as best they can.

4. Accident reporting and investigation

All accidents and incidents, including near-misses or dangerous occurrences, will be reported as soon as possible to the Head of Estates and Facilities using the standard Accident Report Form.

More in-depth information concerning reporting accidents and near-misses can be found in the following sections of this policy.

Reporting hazards

Staff, pupils, contractors and visitors have a legal duty to report any condition or practice they deem to be a hazard. In most cases, reporting should be conducted verbally to the Head of Estates and Facilities as soon as possible, who will then inform the Headteacher as appropriate. Serious hazards will be reported using the appropriate form available in the [school office](#).

Accident investigation

All accidents, however minor, will be investigated by the health and safety officer/ Head of Estates and Facilities and the outcomes recorded. The length of time dedicated to each investigation will vary on the seriousness of the accident. After an investigation takes place, a risk assessment will be carried out, or the existing assessment amended, to avoid reoccurrence of the accident.

The Head of Estates and Facilities will undertake **monthly** evaluations of all reported incidents. They will then identify patterns and trends in order to take corrective action and minimise the reoccurrence of any incident or illness.

5. Active monitoring system

It is good practice to actively monitor systems prior to accidents, ill health or incidents taking place; this involves regularly checking compliance procedures and the achievement of objectives. The school's procedure for actively monitoring our system includes:

- Annual audits, including fire risk assessments and health and safety audits.
- **Termly** examination of documents to ensure compliance with standards.
- **Termly** inspection of premises, plants and equipment.
- **Monthly** reports and updates to the Headteacher.

- External measures, such as surveys by contractors and service providers, along with visits from Environmental Health and Ofsted.

6. Risk assessment

The Headteacher has overall responsibility for ensuring potential hazards are identified and risk assessments are completed for all areas in the school. The health and safety officer will be consulted when risk assessments are being carried out.

Termly assessments of high-risks areas, such as laboratories, will be undertaken. **Annual** risk assessments will be conducted for all other areas of the school. Risk assessments will consider the needs of staff, pupils, visitors and contractors. Risk assessments will identify all defects and potential risks along with the necessary solutions or control measures.

Risk assessments will be reviewed if:

- There is any reason to suspect that they are no longer valid.
- There has been a significant change in related matters.
- The governing board will be informed of risk assessments, allowing issues to be prioritised and actions to be authorised, along with funds and resources.

The school will record any significant findings of any risk assessments, including the following:

- The identified hazards
- How people might be harmed by them
- What the school has implemented to control the risk

7. Slips and trips

In line with HSE guidance, control measures are in place to effectively control slip and trip risks. The school utilises the following procedure:

- Identify the hazards – risk factors considered include:
 - Environmental (floor, steps, slopes, etc.)
 - Contamination (water, food, litter, etc.)
 - Organisational (task, safety, culture, etc.)
 - Footwear (footwear worn for evening events may not be in line with the School Uniform Policy)
 - Individual factors (rain, supervision, pedestrian behaviour, etc.)
- Decide who might be harmed and how
- Consider the risks and decide if existing precautions are sufficient, or if further measures need to be introduced
- Record the findings
- Review the assessment regularly and revise if necessary

8. Fire safety

All staff fully understand and effectively implement the Fire Evacuation Plan, which will be implemented in the event of a fire.

The Headteacher and Head of Estates and Facilities is responsible for certifying that procedures for ensuring that safety precautions are properly managed will be discussed, formulated and effectively disseminated to all staff. Staff will receive fire safety training to ensure they understand the procedure for fire drills and the use of fire extinguishers.

The school will test evacuation procedures on a **termly** basis. Firefighting equipment will be checked on an **annual** basis by an approved contractor. Fire alarms will be tested **weekly** from different 'break glass' fire points around the school, and records will be maintained and held in the **school office**.

The evacuation of visitors and contractors will be the responsibility of the person they are visiting or working for.

9. Evacuation, invacuation, lockdown and bomb threat procedure

The school will follow the procedure outlined in the Invacuation, Lockdown and Evacuation Policy and Personal Emergency Evacuation Plan in the event of a crisis.

All staff fully understand and effectively implement the school's Bomb Threat Policy.

In the event of an emergency, the procedures outlined in the Bomb Threat Policy, the Invacuation, Lockdown and Evacuation Policy, the Evacuation Procedure, and the Lockdown Procedure will be followed. All staff are trained in handling bomb threats and have easy access to instructions of the procedure, which can be found in the Bomb Threat Policy.

10. Visitors and contractors

The procedures outlined in the Visitor Policy and will be implemented by relevant staff when receiving visitors to the school. They will also be given a safeguarding document on arrival.

Anyone hiring the premises will be made aware of their health and safety obligations when making the booking.

Contractors will be responsible for the health and safety of their employees and for ensuring safe working practices. They will not constitute a hazard to staff, pupils or visitors to the school.

11. Construction and maintenance

When undertaking construction or maintenance work, the school will do so in accordance with the Local Regulations including:

- The construction, alteration, conversion, fitting out, commission, renovation, repair, upkeep, redecoration, or other maintenance, decommissioning, demolition or dismantling of a structure;
- The preparation for an intended structure, including site clearance, exploration, investigation (but not site survey) and excavation (but not pre-construction archaeological investigations), and the clearance or preparation of the site or structure for use or occupation at its conclusion;

- The installation, commission, maintenance, repair or removal of mechanical, electrical, gas, compressed air, hydraulic, telecommunications, computer or similar services which are normally fixed within or to a structure;
- The assembly on site of prefabricated elements to form a structure or the disassembly on site of the prefabricated elements which, immediately before such disassembly, formed a structure;
- The removal of a structure, or of any product or waste resulting from demolition or dismantling of a structure, or from disassembly of prefabricated elements which immediately before such disassembly formed such a structure.

The Headteacher will ensure that all construction and maintenance projects have a formally appointed principal designer and principal contractor. The Headteacher will liaise with the principal contractor to identify if the scope of the project means that it should be notified to the HSE. The Headteacher will also ensure that:

- The principal designer and principal contractor are provided with a 'client brief/CDM pre-construction information' at the earliest opportunity, to contain relevant information which should, as a minimum, include the following:
 - What the school wants built or maintained
 - The site and existing structures
 - Information about hazards, such as asbestos
 - Timescales and budget for the build
 - How the school expects the project to be managed
 - Welfare arrangements
 - Details of the nearest A&E department
- The principal contractor draws up a Plan that explains how health and safety risks will be managed – permission will not be given for construction or maintenance work to begin until this is in place.
- The principal designer prepares a health and safety file containing information that will help the school manage risks associated with any future maintenance, repair, construction or demolition work.
- The roles, functions and responsibilities of the project team are clearly defined in writing, e.g. in the project plan.
- Sufficient time and resources are allocated, and effective mechanisms are in place to ensure good communication, cooperation and coordination between all members of the project team.
- The principal contractor has made arrangements for adequate welfare facilities for their workers before the construction or maintenance work starts.
- Following completion of the project, the health and safety file is handed over to the Headteacher, kept up-to-date by the health and safety officer, and is made available to anyone who needs to alter or maintain the building.

The Headteacher and Head of Estates and Facilities will hold weekly progress meetings with the project team to ensure that all members are carrying out their roles as required. Where the project is for a new workplace or alterations to an existing workplace, it must also meet the standards set out in The Workplace (Health, Safety and Welfare) Regulations 1992.

12. Personal protective equipment (PPE)

PPE means all equipment worn, or held, by staff or pupils which is designed to protect them from specified hazards. The school will provide employees and pupils who are exposed to a hazard at the school, which cannot be controlled by other means, with PPE where appropriate. All staff and pupils will be provided with protective eyewear in all workshops and laboratories. Visitors will also be supplied with PPE when appropriate.

Staff and pupils will use the PPE provided, and care for it according to the instructions and training given. Supervising staff will ensure PPE fits the wearer properly. Where more than one item of PPE must be worn, the items should be compatible and remain effective. PPE will not be worn if wearing it causes a hazard greater than the hazard it is intended to protect the wearer from. Pupils will report any loss or defects to their class teacher, who will report it to the site manager for repair. Damaged PPE will not be used and will be disposed of in line with the manufacturer's instructions if it is not possible to repair.

PPE includes protective laboratory and workshop equipment, such as protective clothing, safety footwear, face masks, and respiratory protective equipment. Clothing that is not specifically designed to preserve the health and safety of the wearer, e.g. school uniform, does not constitute PPE.

Thorough risk assessments are carried out by the health and safety officer to determine the suitable PPE to be used for each hazard and these are reviewed on a termly basis.

Staff and pupils will receive appropriate health and safety training in order to ensure they know how to properly use, maintain and store PPE, and how to detect and report faults. Equipment manuals are readily available and warning signs are clearly displayed in areas, and on equipment, where PPE is mandatory. When not in use, PPE will be properly stored, kept clean, and in good repair.

The school understands its duty to cover the costs of purchase, cleaning and repair for all clothing that is:

- Protective clothing that staff require to fulfil their roles.
- A uniform that employees only wear to work.

13. Work-related hazards

Manual handling

Manual handling can prove hazardous when it has the potential to cause a musculoskeletal disorder. This can be due to repetition of the action, the force and/or posture involved in the completion of a handling task, and/or a person's ability to hold or grasp the particular item in a safe and balanced manner.

The school will, as far as practicable, reduce the need for members of staff to carry out any manual handling tasks that involve a risk of injury. Where manual handling tasks are necessary, the school's Manual Handling Risk Assessment will be implemented. The control measures will be monitored to ensure they are reducing the risk of injury and being implemented correctly.

The capability and circumstances, e.g. age, of staff will be taken into account where manual handling tasks are required. Where there is an unacceptable risk of injury or harm, no manual handling tasks will take place.

All members of staff will receive manual handling information and training as needed.

In order to manage these risks, appropriate policies and procedures have been adopted.

Working at heights

Policy and procedures concerning employees working at heights are addressed in the Health and Safety Policy. Staff members are required to sign statements confirming that they have received, read and understood the policy, prior to being allowed to work at heights.

Lone working

Staff members are required to sign statements confirming that they have received, read and understood the relevant policies, prior to being allowed to undertake lone working.

Stress management

Staff will be aware of the symptoms of stress, including sleeping problems, dietary problems, mood swings, feeling lethargic, fatigue, emotional problems, chest pains and elevated heart rate, lack of focus, inability to concentrate and increased sweating. Staff members who suffer from any of these symptoms are advised to consult their doctor as soon as possible.

Display screen equipment

Display screen assessments will be carried out by the Estate & Facilities Manager for teaching staff and administrative staff who regularly use laptops or desktops computers.

14. Maintaining equipment

Staff and pupils can expect that any equipment they use is suitable for its intended use and is properly maintained. Inspectors or safety technicians, will inspect the following equipment for health and safety issues annually:

- All electrical appliances
- Any workshop equipment
- All chemical cupboards

It is the responsibility of the Estates & Facilities to ensure new equipment meets the appropriate standards and conforms to all health and safety requirements. A health and safety technician should be consulted as necessary.

Staff members are asked not to bring in their own appliances unless necessary; if they wish to, they must have approval from the Headteacher and ensure that the appliance is assessed and approved by the site manager for use. Damaged, faulty or broken appliances are never brought in or used. Staff members take their appliances home at the end of the day.

15. Hazardous materials

The school will only purchase hazardous materials from a reputable source, making sure that the relevant material safety information is provided by the retailer on delivery. The school will only order supplies of hazardous materials when existing stocks are no longer adequate, and in quantities that are no larger than necessary. No chemicals or other hazardous materials will be used without the permission of the Headteacher and Head of Estates and Facilities manager.

The Estates & Facilities manager is responsible for ensuring all products that may be hazardous to health are risk assessed before being used, taking into account the advice on the relevant safety advice from the relevant company.

The Estates & Facilities manager will ensure that the relevant control measures and appropriate guidelines are put in place to manage the risks identified in risk assessments. Control measures will be checked and reviewed by the Estates & Facilities manager on a termly basis to ensure continued effectiveness, even when they are known to be reliable.

The Headteacher will ensure that science staff are suitably trained in the handling of hazardous chemicals and materials.

All equipment, materials and chemicals will be held in appropriate containers and areas conforming to health and safety regulations. Hazardous substances will be labelled with the correct hazard sign and contents label.

Low-toxic products, such as corrective fluid and aerosol paints, will be stored securely and only used under supervision in a well-ventilated area. Dust and fumes will be safely controlled by local exhaust ventilation equipment.

No staff member or pupil should ever be put at risk through exposure to any hazardous substance used in our practical curriculum. No potentially hazardous materials will be used in lessons without the approval of the health and safety officer. The health and safety officer will ensure staff are appropriately trained to use hazardous materials.

Where a substance has a workplace exposure limit, control measures will ensure that exposure is below the limit.

The Estates & Facilities manager will keep an up-to-date inventory of all the hazardous chemicals and materials held at the school. An annual audit of hazardous materials will be undertaken by the site manager with routine surveillance to ensure that they remain safe to store. Unwanted or surplus chemicals and materials, including those that have become unsafe, will be disposed of by a registered waste carrier, in accordance with school procedures.

16. Cleaning

Contract cleaners will be monitored by the Estates & Facilities manager. The standard required will be clear in the service level agreement held with the contracted cleaners. Special consideration will be given to hygiene areas.

Waste collection services will be monitored by the site manager. Special consideration will be given to the disposal of laboratory materials and clinical waste.

17. Infection control

The school actively prevents the spread of infection through the following measures:

- Routine immunisation
- Maintaining high standards of personal hygiene and practice
- Maintaining a clean environment

The school keeps up-to-date with immunisation scheduling and advice. All pupils' immunisation status is checked at school entry and at the time of any vaccination. The school encourages parents to have their children immunised.

All staff are subject to a full occupational health check before starting employment at the school. The school will ensure that arrangements are in place to minimise any health risks, e.g. flu, by ensuring hygiene standards are maintained and pupils and staff are not permitted in school if they are unwell. Staff and pupils displaying signs of infection will be sent home and recommended to see a doctor.

18. Allergens and anaphylaxis

Parents are required to provide the school with up-to-date information relating to their children's allergies, as well as the necessary action to be taken in the event of an allergic reaction, such as any medication required. Staff are also required to provide the Headteacher with a list of their allergies. Information regarding pupils' and staff members' allergies is collated and stored securely.

The Headteacher and catering team will ensure that all pre-packed foods for direct sale made on the school site meet the requirements i.e. the product displays the name of the food and a full, up-to-date ingredients list with allergens emphasised, e.g. in bold, italics or a different colour. The catering team will also work with any external catering providers to ensure all requirements are met and that is labelled.

Staff will receive appropriate training and support relevant to their level of responsibility, in order to assist pupils with managing their allergies.

19. Medication

The school will obtain notification from parents regarding any medication that pupils are required to take. Only trained staff will administer medication i.e. School Nurse. A record will be kept of any medication that pupils take – this will be checked prior to administering any non-prescription medication.

20. Security and theft

CCTV systems will be used to monitor events and identify incidents taking place. CCTV systems may be used as evidence when investigating reports of incidents.

Money will be held in a safe and banked on a regular basis to ensure large amounts are not held on site. Money will be counted in an appropriate location, such as the school office, and staff should not be placed at risk of robbery.

Staff and pupils are responsible for their personal belongings and the school accepts no responsibility for loss or damage. Thefts may be reported to the police and staff are expected to assist police with their investigation.

All staff are expected to take reasonable measures to ensure the security of school equipment being used. Missing or believed stolen equipment will be reported immediately to a senior staff member.

The school will install access control and security measures to ensure the safety of the school, e.g. security glazing on windows. The school will ban individuals from the premises if they pose a risk to any member of the school community. The school will consider any risks that are posed by their local context, e.g. recent arson attacks.

21. Severe weather

The Headteacher and Head of Estates and Facilities, in liaison with the COO, will make a decision on school closure due to severe weather on the grounds of health and safety. If a closure takes place, the governing board will be promptly informed.

22. Monitoring and review

The effectiveness of this policy will be monitored continually by the Headteacher and the Head of Estates and Facilities. Any necessary amendments may be made immediately.

The next scheduled review date for this policy is September 2023.

The school will establish a monitoring system that is backed up by performance measures and this will be reviewed following an incident.
